

CITING USING MLA 8 FORMAT

The Works Cited page is a continuation of your paper and is a list of sources referred to in your paper. It occurs on a **new page after the last page in your essay**. The Works Cited page does not fulfill the required number of pages in the writing assignment.

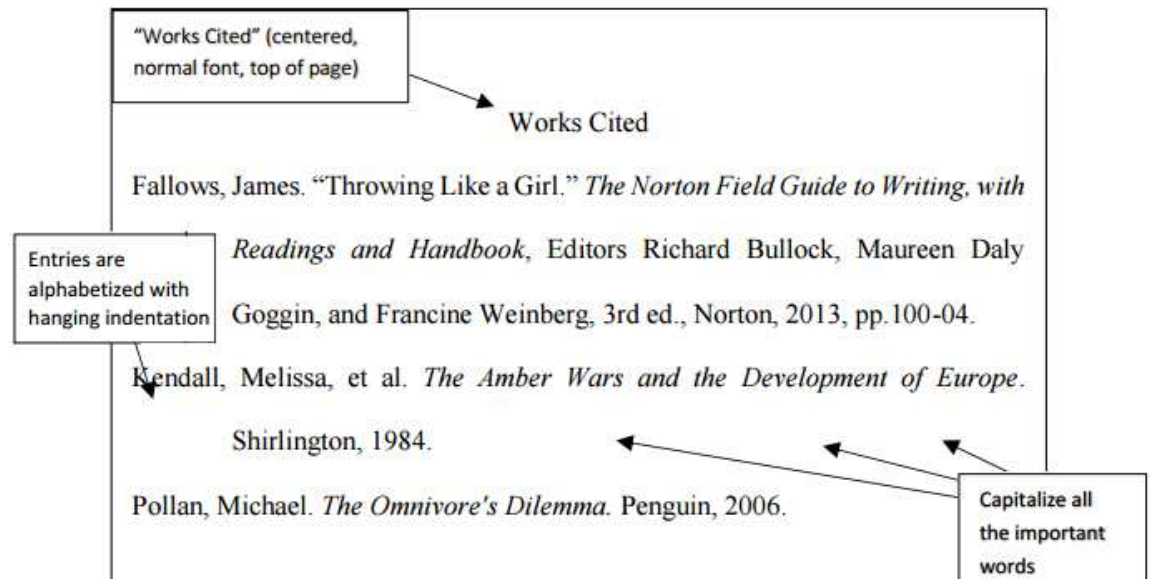

List of works cited/works consulted needs to include basic core information, such as author's name, title of source, publication date, and other information (if available), depending on the type of source. Each entry should be uniform and simple, but should give enough information so that your readers can locate your sources.

In general, identify each source's information in the following order:

1. Author(s),
2. Title of quoted source,
3. Title of container source (A container is a larger work containing your cited source.)
4. Other contributors (if any),
5. Version,
6. Number,
7. Publisher name,
8. Date Published,
9. Location (page number/URL/DOI)

- The words **Works Cited** should be **CENTERED** at the top of the page.
- The entries should be **DOUBLE SPACED** and use **HANGING INDENTATION** for two lines or more of information.
- **ALPHABETIZE** the entries on the Works Cited page according to the citation's first important word (whether it is an author's last name or a title of a work). However, you should disregard articles ("A," "An," and "The") when alphabetizing.
- **CAPITALIZE** important words in titles and proper nouns.

Works Cited Page Example:

MLA 8 Examples

Source	Work Cited Example	In-text Example
A Book by a Single Author	Pollan, Michael. <i>The Omnivore's Dilemma</i> . Penguin, 2006.	(Pollan 98)
